### GREATEST TEMPLE OF TRADE OPENS.

*Horde of Seventy-five Thousand Crosses the Threshold of the New Hamburger Store—Surging Crowd an Impressive Sight.*

SEVENTY-FIVE THOUSAND persons visited Hamburger's new store, the greatest temple of commerce west of Chicago, yesterday. This figure is based upon calculations made by the managers and heads of departments. From the moment the doors opened at 9 o'clock a.m. until the close of day the place was thronged. Men, women and children flocked in and out constantly, through the scores of imposing doorways, and enough clerks to handle the traffic of a few hundred ordinary stores were kept busy every moment.  
The opening of this mammoth emporium upon the minute was a triumph. A feature of the Hamburger establishment was that not even for one hour was it closed on account of the moving of the headquarters from North Spring street to South Broadway. The old store closed at its usual time Saturday, and the new store opened yesterday morning at a fixed time for the dedication ceremonies which marked the event.  
Shortly after 10 o'clock, on the fourth floor, where the grocery department and vast dining-room will soon be in running order, was assembled a large audience of business men of the city, public officials, men and women shoppers and other visitors. D. A. Hamburger introduced Mayor Harper as chairman in a brief and happy address, and the Mayor of Los Angeles

### CARELESSNESS DISCOURAGED.

Whittier Lads Held for Grand Jury on Charge of Leaving Camp Fire Burning.  
George Burnett and Earl Carmack, two Whittier lads, were held yesterday by the Federal grand jury yesterday by United States Commissioner Williams, on a charge of failing to extinguish a camp fire in Arambuco Canyon, Orange county. Each furnished bonds of \$500.  
The boys were deer hunting, and when they left camp on the morning of July 11, they asserted, they put out their fire, but forest rangers asserted that embers from it started a blaze that spread over 5000 acres of valuable government timber land.  
The only way to stop carelessness is to severely punish culprits," asserted Forest Supervisor Marshal of San Diego. "In the present case the maximum penalty is \$1000 fine, or one year in jail, or both fine and imprisonment. We have found it necessary to give a lesson to campers and hunters. Within a short time there have been twenty-four fires on the Cleveland reserve. Last year about 25,000 acres of the 2,000,000-acre reserve were burned over. That means a loss of valuable timber, damage to the watershed and destruction of deer and other wild animals."

### SAYS HE'S HER FATHER.

Unknown Man Annoys the Probation Officers by Advertising for a Mysterious Girl.

Probation Officers Bryan and McCracken at the Detention Home are annoyed by the peculiar conduct of a man who calls himself "W. A. Goll." "He took the liberty," Mrs. Bryan explained, "to have reports about a young girl, said to be his daughter, sent to this office, although we know nothing about the girl, have heard nothing of her, and would not recognize her if she walked in."  
"He said the girl had been out working somewhere, as a servant, and had left her place after two days. He was trying to find her. He did not leave his home address, and we know nothing of him, nor did he leave her photograph."  
"Goll" advertised for information about "Blanch Davis," or "any other name." She is described as 18 years old, wearing a Merry Widow hat of light straw, trimmed with red flowers, and a white gown.  
The city directory does not contain the name of "W. A. Goll."

### DORR PLANS A COUP; TO REOPEN OFFICE.

FRED DORR, the broker who is in trouble, is said to be planning a coup for either today or tomorrow. It is apparently his intention to reopen his office, and to try to bring about some sort of a settlement with his creditors.  
Yesterday, while arrangements were under way, Dorr kept out of sight. Before leaving San Francisco last Saturday he made a statement bitterly attacking Capt. Norwood, who caused his arrest, saying that Norwood wanted to be a preferred creditor.  
After about two minutes' conversation with his attorneys in this city, Dorr not only lost his voice, but became invisible; no more statements. Yesterday he could not be found, and his attorneys strenuously refused to give out a word of explanation. They conceded, however, that something is to happen soon.  
It is stated that Dorr is able to hold out pretty strong inducements to some of his former clients to settle—even though they have to settle at a liberal discount.  
One of Dorr's clients, for example, was a mining man who was in the habit of investing a large sum regularly every month. Shortly before the crash in Dorr's business, he placed an order through Dorr for a large bundle of railroad stocks. He never was able to get them. As often as he went to Dorr's, the latter made some excuse. He said that the stocks had been purchased, as ordered, but that they had been delayed in the mail; that they were in his Chicago office.  
The mining man went back to Dorr's several times for news of the delay.

### SETTLEMENT?

stocks, but Dorr kept stating they were still lost, and would arrive safely in due season. The stocks, however, were never delivered. The point is that the mining man is not half as anxious to get vengeance on Dorr as to get hold of the missing stocks—or some part of his money back.  
Although Dorr has almost fiercely protested his business integrity, other brokers in Los Angeles assert his undoing came about through "buckkings" his clients' orders for stocks.  
The stock markets have been "bullied" to an unusual degree. Dorr undoubtedly thought that they could not go higher and expected a drop.  
The suspicion of his clients and other brokers is that instead of purchasing stocks as ordered, he "buckkings" them— withholding the orders, expecting to buy them when the markets dropped and delivering the stocks to his clients at the price that obtained the day of their order. This is an old trick, and would have yielded a handsome profit.  
The investigation that will surely come in the Dorr case will show whether there is any ground for this almost general suspicion.  
The supposition in some quarters is that he had "buckkings" a large amount of stock in preparation for a killing, and when the stocks went still higher, he was ruined because he could not fill his clients' orders. This is largely based on the singular delays that often resulted when his clients placed their orders.  
Working along legitimate lines there is no business reason why a broker should be caught in a crash, as the risk belongs to his customers, and not himself.  
Dorr was regarded as a dealer in

### FOR CHILDREN.

#### HIS GENEROSITY AGAIN PROVEN.

**ORPHANS' HOME SOCIETY GETS FIVE-ACRE TRACT.**

Charles M. Stimson Makes Gift of Property at Colgrove Valued at Fifteen Thousand Dollars—Papers May Not Be Signed Until His Return from Alaska.  
Charles M. Stimson of this city will give to the Los Angeles Orphans' Home Society five acres of land at Colgrove, valued at \$15,000, as soon as the necessary papers can be drawn. Officers of the society conferred with Mr. Stimson yesterday and signified their willingness to meet the easy conditions imposed by the donor, but as he starts for Alaska tomorrow the documents may not be signed until his return in September.  
All that Mr. Stimson requires is that the society shall agree to erect suitable buildings as soon as the present site is sold. He states that he wishes the new orphans' home to be adequate in every way and that he will do all he can toward that end.  
The five-acre tract is bounded by Vine, Warring, Gregory and El Centro streets. It is easily accessible by the Colgrove line and offers a fine view of the foothills.  
Mr. Stimson has had many opportunities to sell the land, but he has planned for some time to donate it to some charity. Several benevolent societies have urged their claims, but none appealed to him as strongly as did that of the Los Angeles Orphans' Home.  
"I am very much interested in children," he said last night. "There is such an opportunity to make good men and women of them. Many of the little fellows have never had a good home, or known a parent's care. For a long time I have been considering the needs of the orphans' home and believe that I cannot give the tract to a more worthy cause."  
For many years Mr. Stimson has given largely to charity, but he is very averse to publicity and few persons outside of his circle of intimate friends know of his benevolence. He has donated generous amounts to the Associated Charities, orphan asylums and church societies. His purse has always been open to worthy enterprises.  
The Los Angeles Orphans' Home Society, at No. 809 Yale street, was organized in 1881. At the present there are more than one hundred children in the home, which is under the direction of a number of prominent men and women of this city.  
The property on Yale street is well

way; J. D. Jones, an operative in the offices of the W. G. Hutchinson Company of South Broadway, and P. E. Reinschmidt, who is employed in the offices of Dr. Schiffman at No. 107 North Spring street, were issued yesterday from Justice Austin's court and the men were arrested. Other arrests will be made.  
The State Board of Dental Examiners, through Dr. G. Maurice Crow of the Wilco, building, the Los Angeles representative, has inaugurated a system whereby it expects to compel every dentist without a State license to stop practicing.  
In securing the evidence for prosecutions Dr. Crow employed women detectives from the north. Mrs. Aileen Burris, who has had long experience, and Mrs. Marjorie Walsh, who is new to detective work but who has won an enviable reputation during the short time she has been engaged in it, are responsible for the complaints issued yesterday. They accompanied male detectives had failed to do. They are said to have been operated upon by the men under suspicion, and in the presence of a witness.  
RIGID RULES FOR PATIENTS.  
"Los Angeles has many illegal practitioners and we intend to clean them out," said Dr. Crow yesterday. "We do not intend to stop the crusade until every man who has no right to practice has quit the business. Many of the dentists have no regard for the State law and refuse to observe it. For instance, Dr. Foster of the Yale Dental Company, is eligible for an examination before the State board but he will not take it. Instead, he hangs up a license secured from the dental board of Texas. He can legally practice in that State but not in California. Through the clever work of the women detectives, we expect to convict him."  
NOT PERSECUTION.  
"This is not a case of persecution, but of law. We intend to arrest every

There is just as big a difference between the manufacturer who makes furniture to sell, doing a very little business home by home, and the manufacturer whose reputation for reliability is such that we all of us admire. Some call him a peddler; he is doing. Everything he touches turns to gold. Every piece of furniture made in this man's establishment is sold at his employer won't stand for it.

It comes to have an added joy in the fact that the furniture has been turned out something more than mere work. It is quality and individuality worked into every piece, you will see that the retailer concerned, the manufacturer.

When we secure our goods are guaranteed in guaranteeing in the strongest terms in turn guarantee to our customers. We guarantee when you buy from us.

After a great length of time the painless method we sell him depends upon the amount of measurement of success or failure for, and that is "good work." ## STATE PRIMARIES.

TODAY'S FIGHT  
TO BE WARM.

Taft Republicans 'Expect to Get Most Delegates.

L.-R. Leaguers Claim Seven of Nine Districts.

Will Be Much Doubt Till the Conventions Meet.

The last bluff has been made; the chips are all in the pot; today comes the showdown that will decide whether the Taft forces shape the policies of the Republican party in Los Angeles county.

The battle joins at daybreak this morning with the opening of the polls in all the election precincts of Los Angeles and Pasadena. The auxiliary forces in the county outside these cities must rest on their arms until 1 o'clock this afternoon, as the country polling places do not open until that time.

Unless a veritable landslide occurs the actual political result will not be known definitely until the county convention meets. The voting today is for delegates only. There has been a great deal of trading over the three sets of delegates to be elected, and it will not be easy to determine in advance what the delegates will do when they get together at next Tuesday's convention.

OUT OF IT.

The heavy registration points toward an unusually large vote, possibly a record breaker. But there are disagreeable surprises in store for more than a few voters in Los Angeles city alone who refused to state their party affiliation when they registered. Under the State law these cannot vote in today's primaries. This condition will reduce materially the number of ballots actually cast.

THREE SETS.

Primaries are held today for the selection of three sets of delegates. The electors of the county will vote in the Assembly districts for delegates to the State convention. They will vote in the Congressional districts for delegates to the Congress convention—and last, but not least, they will vote for delegates to the Republican County Convention to be held in the Shrine Auditorium on West Jefferson street next Tuesday.

Both sides are claiming victory, but the leaders in both camps admit that they are not at all certain of the trend of the silent vote. On the streets and in the clubs last night the candidates of the Taft Republicans were almost unanimously favored in seven of the nine Assembly districts.

THE BETTING.

Even money was offered that the Lincoln-Roosevelt League does not carry four of the nine districts; the odds were as great as 10 to 4 that the Taft forces would elect delegates to the Republican County Convention.

There were 83 delegates to the county convention. Chairman Butler of the Lincoln-Roosevelt League claims 50 of these delegates and seven of the nine Assembly districts.

OTHER SIDE.

Leon F. Moss, chairman of the Campaign Committee of the Taft Republicans, gave a last word of cheer to the voters last night by telling them that, if they will get their votes to the Taft Republicans will control the county convention with a working majority of not less than 75 per cent.

In the attitude of the opposing forces there is a marked contrast. The Lincoln-Roosevelt bosses commenced a celebration last night by having telegrams sent to the effect that a glorious victory is already achieved. A number of dinners were held at the all-night cafes, celebrating the "capture of the works."

The leaders of the Taft Republicans worked all night long in details of today's battle which they realize is going to be a lively scrimmage. The best of good feeling prevails and there will be no staking in the center when the battle joins at daybreak this morning.

Whenever a precinct worker reported that the victory is won he received a strong admonition to "Go back and make it unanimous."

In a sense the battle seems as though this may occur. At clear stores and in hotel corridors last night even money was offered that Marshall Stinson will not win a single delegate in the Second Ward.

At the finish it develops that a great deal of the Lincoln-Roosevelt organization east of Main street is in peril; only in half the precincts of the Seventh Ward, in the whole of the Eighth Ward, in the river front precincts of the Ninth and First wards, and in about one-third of the Sixth Ward there will be little or no contest on the part of the leaguers.

THE HOTTEST.

The battle in the city today will be fiercest in the Seventy-third and Seventy-fifth Assembly districts. It is in these that the league has the best chance of winning, and in every precinct the Taft Republicans will be on guard.

In the Seventy-first District it looks as though the league has almost a done deal. Reports last night were to the effect that most of the league hangers appointed for this district will be transferred before noon today over into the Thirty-seventh Senatorial District to help out Marshall Stinson.

Stinson's followers are tonight the "tramp" of the Taft Republicans forming for the fray; a score of the league workers rushed to the Linsner block with the cry that the whole league workers of Los Angeles county were on their way to the polls to vote for delegates in that district pledged to H. M. Hurd, the man's size Republican candidate.

Stinson still claimed the district; but the old-timers in the league have admitted to their fellows that the case is desperate.

## AN OLD TRICK.

An inspection of the list of league delegates published in the Express last night disclosed fifty Taft Republicans on the list. These were all selected by the league without the consent of the persons named.

This is a very old trick—and a thoroughly discreditable one. Boss Linsner knows that these men are Taft Republicans, and will so vote in the county convention; but he hopes their names on the tickets will win some of the Taft votes.

might be numerous enough to elect a league list with a Taft Republican at its head.

SAMPLE STATEMENTS.

The Times received telephone calls from a number of these men last night asserting that their names have been used by Linsner without their knowledge or consent.

Lincoln-Roosevelt delegates sent to The Times the following signed statements:

"To My Friends in Precinct 144: This is to state that my name appears upon the 'Lincoln-Roosevelt' ticket as a delegate to the State convention through a misunderstanding, and I wish all my friends in this precinct to vote for Mr. W. E. Easton, the regular caucus nominee, as a delegate to the county convention."

(Signed) "H. STRICKLIN."

"To My Friends in Precinct 144: I wish you to know that my name appears upon the 'Lincoln-Roosevelt' ticket as a delegate to the county convention without my consent, and against my will."

"I hope all my friends will vote the regular Republican ticket, which should be good enough for any one."

(Signed) "HENRY BATIE."

THE LITERATURE.

A carload of red ink went into the campaign literature of the Lincoln-Roosevelt League. In this regard the ardent leaguers overdid themselves, for in hundreds of households the circulars were regarded as anarchistic literature of the "reds" and cast into the waste bin without reading.

The Taft Republicans eschewed red ink; the heavy part of their campaign literature consisted of a pamphlet entitled "Now is Not the Time to Split the Republican Party," written by Leon F. Moss, manager of the Campaign Committee, and issued officially by the Republican League of Los Angeles county.

This is accompanied by a four-page circular containing extracts from an address delivered by Senator Fillet at the prosperity banquet of the Second and Third Ward Taft Republican Club.

Throughout the citrus fruit districts literature was circulated by the Taft Republicans containing tariff reduction editorials published in the Evening Express; also Express editorials commending William Jennings Bryan as the first citizen of the country and Theodore Bell as the great independent political leader of California. These were intended to state their party affiliation when they registered. Under the State law these cannot vote in today's primaries. This condition will reduce materially the number of ballots actually cast.

## AN OLD TRICK.

This is a very old trick—and a thoroughly discreditable one. Boss Linsner knows that these men are Taft Republicans, and will so vote in the county convention; but he hopes their names on the tickets will win some of the Taft votes.

The bosses of the Democratic League and the Democratic Club have been making faces at each other ever since the Battle of Fresno; but the showdown reveals that they have done surprisingly little work. Their best proves to be a desultory squabble in the Seventeenth Assembly District over sending Frank Goings as a delegate to the Democratic State Convention. Goings' friends insist that he shall be named as a delegate in order that he may receive a "vindication." The Democratic League is pestered over the attempt of the regulars to elect Goings, and they are going to make a fight in that assembly district today.

Billy Conkling came up from the Imperial Valley two days ago to take charge of Goings' campaign. William Burke is in charge of the forces of the league.

Apparently the Democrats have abandoned all hope of electing a single assemblyman from this county; their only interest in local politics is in the superlunary contests.

Tony Schwamm wants to succeed Patterson as Supervisor. Martin Belouche is applicant for Alexander's place and Frank Haddock is planning to succeed Pete Wilson. Alfred Moore is also a near-candidate for Patterson's place.

The Democratic primaries, today, promise to be of the kind that stand without parallel in the history of the "regulars" is that if the league wants control of the machinery, outside the Seventeenth Assembly District, it is welcome to the works.

IN THE NORTH.

The primaries held throughout the State today elect delegates to conventions which will select eighty Assembly and twenty Senatorial candidates. More than usual importance attaches to this election because the Legislature chosen will elect a United States Senator.

In the Democratic ranks the fight is between Gavin McKee and Theodore Bell. In addition to the four tickets put in the field by the Republicans and Democrats, there will be an independent league ticket and a Union Labor ticket.

In the Second and Third Congress Districts, Congressman Duncan McMillan and Joseph K. Knowlton appear to have little opposition for the Republican nomination. In the Fourth, Frank Martin, head of the Good Government League, is mentioned as a possible Lincoln-Roosevelt League candidate for nomination against Julius Kahn, the incumbent; and in the Fifth there is a hard fight against Congressman E. A. Hayes. In the Sixth it is said Congressman J. C. Needham will have little opposition for renomination.

A heavy registration in San Francisco indicates that a lively interest is being taken.

The Spectacles faction of the Lincoln-Roosevelt League has displayed enough of its hand before the draw to show that it is not a bluff. It is reported that the Spectacles faction is planning to support Senator Belshaw for the United States Senate. The leaguers have gone to the extent of announcing that they will return Belshaw to the State Senate, as the place is promised to another.

## REPRESENTATIVE.

TAFT REPUBLICAN  
PRIMARY TICKET.

IN THE accompanying list are the names of the Los Angeles and Pasadena candidates for delegates to the Republican County Convention in Los Angeles next Tuesday, to be voted for at the primaries today. These candidates are nominees of delegates called regularly and with due notice to all Republican voters, and are the men picked by members of the Republican party who take enough interest in its success to turn out and do their duty at the caucuses, which are the duly sanctioned preliminaries of the primaries. The Taft-Republican ticket is as follows:

Marguerite Jones and Thomas McKinley are the lucky couple to win special prizes on points made from subscriptions during the past two weeks. The blue-eyed Marguerite has won 86,761 on this count, equaling more than twenty new annuals, while Thomas has won 80,498. The Pomona boy has doubled the score of the boys for this sort of business all the way down the line. Alice Capron was third in the race for the girls, making 40,070; Laura Easton was next, with 32,408; and Hazel Franklin was fourth, with 73,599. Leo Domke was fifth, with 44,632. Boys, boys! Each prize winner has the choice of a new Wright & Dillman tennis racket with two tennis balls, or a Beach ball from the popular sporting goods house of Dyna-Chin, on West Third street. she intends to vie with the nightingales some day in singing. While Marguerite is desirous of gaining a piano course in the Eva Keller School of Music, incidentally both girls, and the Hazel Chl girl as well, are hoping to win that fine Fairbanks piano from the Southern California Music Company. Hazel Franklin has taken a little rest to spend a few days' relaxation with the members of her Sunday-school class at Long Beach, but she left faithful sister Rose to work during her absence and yesterday Rose handed in one new annual for Hazel, and five points besides. Lizzie Shapiro, who is also working for the Eva Keller School of Music, had a beautiful surprise yesterday, one of those happenings that make life so interesting once in awhile. Mrs. Emil Firth of No. 446 Grand View avenue sent a two-year renewal to Lizzie with a number of coupons. She also wrote a note expressing the wish that Lizzie might win at

**We'll Supply Breakfasts  
Next Week**

Breakfast for one week on **Mapl-Flake** and fruit. You will never again go without it. We'll buy the first week's breakfasts. Then, if you like it, you can buy the next.

The ideal food for hot weather. Whole wheat, made wholly digestible. Flaked and toasted, and flavored with maple syrup. It gives one the maximum nourishment and produces the minimum heat. Meat acts the other way. At least one meal a day, in summer, should consist of **Mapl-Flake** and fruit. Comfort and good health demand it. None of the fad foods can possibly take its place.

**Mapl-Flake** is whole wheat, prepared by a process requiring 96 hours. The wheat is steam-cooked for six hours. Then it is cured for days—a partial digestive process. Then each separate berry is flaked so thin that the full heat of our ovens can attack every atom. Then those thin flakes are toasted 30 minutes in a heat of 400 degrees.

Flaked foods can be prepared without all this expense—prepared in one-fourth of the time. But that long process, and that fierce heat, are essential to perfect digestion. In no other way can the particles be separated so the digestive juices can get to them. The result is a food that's all food, because it all digests. The shorter process makes a half food—a food that but half digests. Then we cook our wheat in pure maple syrup, mainly for the children's sake.

There is little use in making the best food if children don't like it best. So we give it this enticing flavor—the most delicious flavor that a cereal ever had. The result is, children want it as much as you want them to have it. You can't serve it too often; they never get too much.

**One Package Free**  
One package of **Mapl-Flake** will make you a convert forever. You will never go back to inferior foods after you once try this. So we offer to buy the first package ourselves, rather than have you delay. Please send us this coupon—now before you forget it. We will then send you an order, good at your grocer's for a full-size package free. Then you'll know. You will need no persuading to get it again.

**Cut Out This Coupon**  
and mail it to the Hygienic Food Co., Battle Creek, Mich.

I have never used Mapl-Flake, but if you will send me an order on my grocer for a 15c package free, I shall be glad to try it.

the top. "Booch a beautiful letter," said little Lizzie, whose tongue has not learned the trick of English very perfectly as yet. The Santa Barbara girl, Gladys Hill, sent in over 2000 points yesterday with one new subscription, as a starter for the next special prizes, and little Ramona Carter, "the littlest girl," had a fine gain. St. Vincent's College made one young girl rejoice yesterday, for the fathers gave their yearly renewal to a Catholic girl, Ottilia Kraft, who, like Celeste Benton, is working for a course in the Immaculate Heart College at Hollywood. Ottilia started in nearly three weeks late in the contest, and has not had so good a chance but she is the cheeriest little worker ever seen. Her name, which is so unusual, is a name of the Alsace-Lorraine region in the old country, that debatable ground that caused so much historic disagreement. Ottilia's father has been dead for many years, and the little girl, whose disposition is so loving and beautiful, had a sad affliction from a bad fall in early childhood, and is not able to cope with the world as well as many others. By the way, what are those short Pasadena boys doing?

**THE PIANO.**  
The first prize to be awarded to the winner of the contest in addition to a choice of schools is a splendid Fairbanks piano from the Southern California Music Company, valued at \$400. It is a beautiful instrument of superior construction, handled by an old and reliable company as a special feature, and is doubly guaranteed. It is known among musicians for its exquisite tonal qualities and responsive action. The case may be of rich mahogany or dark oak.

**HIGH NAVAL OFFICER INVOLVED.**  
Said to Have Furnished Sketches to Japanese Traitor to Sell to Russian Embassy.  
[SPECIAL CORRESPONDENCE OF THE ASSOCIATED PRESS.]  
TOKIO, July 22.—Further news regarding the arrest of Ishiyama Shin-ichi, the alleged Russian spy, is to the effect that on July 20, Ishiyama had an interview with Mr. Suzuki, interpreter of the Russian embassy in Tokio, and told the latter that he would like to sell to the embassy a set of sketches representing the inside of the Japanese naval stations at a cost of 5,000,000 yen, asking his service as an interpreter for the purpose. Furthermore, he promised the interpreter to give one-fourth of that sum as commission.

Instead of communicating the matter to the Russian embassy, interpreter Suzuki at once reported this extraordinary case to the Tokyo gendarmery headquarters, with the result that the alleged traitor was subsequently arrested at the Yumei-Kan Hotel, Tsukiji, already mentioned. The spy is now detained in a Tokio prison, pending trial. It is stated the traitor obtained the sketches from a naval officer of high rank and that they measure three by three feet each. The authorities are now conducting a search for accomplices.

**"In Santa Monica Mountains.**  
The territory up in the Santa Monica Mountains and to the north, away into Ventura county, is being plastered over with locations. These are being made by local people chiefly. The reports of a de-gravely strike by the Santa Monica Oil, Mining and Development Company, though many view it with extreme skepticism, is serving to arouse interest and stimulate locations. More rigs are likely to be seen in the fall. The area, that is considered as fit for prospecting, is quite large. Besides the government land, open for location, the Malibu ranch is largely where oil is as likely to exist as where it is supposed to have been found. The Malibu railroad runs right through this region. If the prospectors' hopes are realized this line may be an important oil carrier. Drilling machinery may furnish a good tonnage with such oil as may be moved by rail although much will, no doubt, be transported by water.

As you read the following remember: The whole world is investing or speculating in stocks. Preach against it as we may, the whole world is playing "The Game." The price the millions get for their wheat, corn, cotton, beef, the passenger and freight rates of railroads and steamships, the rates of interest, the price of real estate and necessities and luxuries and the wage of labor are all made by the stock market.

**2 AT LAST 2**

**TO THE AMERICAN PEOPLE.**

Boston—If ever in the past I have earned consideration for truths told and warnings flown, I now demand your best thought and closest heed for the statement I am about to follow. To the second of three advertisements displayed today in likeplaces in the great newspapers of the world and to be repeated tomorrow in like space in the same publications, I never written, shall never write, anything of graver import to you and to our country than what follows.

It would be frivolous for me to come forward at this juncture with an ordinary proposition. The instrument by whose agency I propose to

Each year the American people reduce billions of dollars over and above what labor and capital are used up in the process of production. These billions should be the property of people who produce them, but the working of a financial trick each year puts this tremendous profit all in the hands of a few men, the Rockefeller, the Harriman, the Morgans and the Rothschilds. These few men these diverted billions become the exploiters and owners of the new power so absolute that it controls the destinies of men.

The ballot box, creates presidents, harnesses the Senate and Congress, directs legislation, manipulates the courts, dictates to labor, regulates the prices of necessities and luxuries, and makes the American people so many dumb beasts of burden.

The reason why it is possible for the few to take from the many their savings and use them for a harness that may drive the people to earn more, just as the slaver drives his human property, is because there has come in existence during the past fifty years a power greater than that of the people, the power of manipulated dollars.

This power today is in the hands of few men—the System—who wield prices, billions of dollars' worth of stocks, bonds and property which the panic-craved people were compelled to throw over to meet loans they had been led to believe would take care of themselves and to protect their business, farms and homes.

During this panic the System dropped prices over \$120,000,000. For instance, \$300,000,000 Union Pacific from 196 to 100; \$150,000,000 St. Paul from 176 to 90; \$155,000,000 Amalgamated, 130 to 100; and so on through the list of hundreds of railroad and industrial stocks.

The enormous losses were made by the people. The sole gainer was the System. The property and securities which were gobbled during the panic were sold to the System at a fraction of the price. The System—only

it remorselessly against the people. My purpose is to put this power into the hands of people to use unsparringly for the destruction of the System. The instrument through which this will be brought about is a mysterious conspiracy, a conspiracy of silence, a conspiracy of the underworld ready to wield and certain in result, a device which will do for the people exactly what the System's machinery has performed for the benefit of the few, the thieves, who have stolen the wealth of the country. The people, who possessed of their wonder-power, were just ordinary everyday Americans.

Fifty years ago there were but few American stocks and bonds in existence. They represented the ownership of a few railroads and indus-

all; over and above the legitimate expenses of conducting them went to the people. At that time there were no 100 and 500-time millionaires--no few men who ran the whole country, no trusts, no System.

The prices of necessities and luxuries were made and controlled by the legitimate demand and the supply.

There were by few banks and trust companies and those institutions loaned the people's deposited savings to the people at rates of interest which were regulated to earn only the expenses of legitimately conducting said banks and trust companies, plus a fair dividend on the capital actually employed in their banking business.

as collateral the Union Pacific at 160, the Missouri Pacific at 150, the Illinois Central at 50, and Tennessee Coal & Iron at 160. At the panic the New York bank could not sell its collateral and it burnt and the System bought from it Union Pacific at 100, Reading at 70, St. Louis Trust at 20, and Tennessee Coal & Iron at 80, and the western bank lost a vast sum of the farmers' money, which the farmers will not have anything about until the next panic, when, because of these secret losses and others of like nature, the western bank busts.

Now my intelligent American friends, you who never buy or sell stocks and bonds, and therefore, are not interested in the doings of Wall Street, who do you guess got the money you lost?

New York and other stock exchanges were but small affairs, conducted for the purpose of enabling the owners of stocks and bonds of legitimate corporations to sell their holdings to those who might wish to invest in them.

Out of this necessary legitimate condition of affairs was hatched the monster fraud that today dominates the American people, thwarts their will and directs their affairs.

A few financiers, the founders of System, contrived a trick device, to-wit:

First, They created fictitious new trusts to control the railroads.

Let us see.

The Union Pacific railroad stock which the System bought at 14 they can sell today at 157; the Reading they bought at 70 they can sell today at 127; the Tennessee Coal & Iron they bought at 50 they can sell today at 140; the Steel they bought at 20 they can sell today at 47, and, I quote from a leading New York daily, "The trustees for the widows and orphans of the different estates all over the country are flocking to Wall Street with the proceeds of their July dividends and coupons, although it would have, perhaps, been wiser if the trustees had bought at 20."

The widows and orphans did not buy at 20. No, they sold at 50. Morgan and his associates what they had bought from Morgan and

Second—They bought privately conducted enterprises, institutions and industries from their owners, at one price, consolidated them into the trusts and issued to themselves in stocks and bonds of the new trusts, new stocks and bonds representing 1000 times the purchase price.

Third—This they did to such an extent that today there are \$70,000,000,000—seventy thousand millions of such stocks and bonds.

Fourth—They then established all over the country thousands of banks and trust companies into which the people (because they had no other facilities for doing business) were compelled to deposit their savings

associates at 50, and they are again buying from Morgan and his associates at 47 what they sold to Morgan and his associates at 50. And the next panic they will again sell at 20 and Morgan and his associates will again buy and be sold by the people as the panic stoppers, the people's saviour. And there you are.

Four years ago, in "Frenzied Finance," I warned the American people of what was coming, and though they read, understood and were on the guard, down they went before this financial blast like spears of wheat before the reaping machine.

There is no power on earth to prevent these few men, the Systers from working this trick in the future as they have in the past, the people

Fifth—The Government was tricked into depositing the Government's money in their banks and trust companies at a nominal rate of interest, often without interest return at all.

Sixth—With these vast amounts of money—all the money of the country—in their control, the System started its trick machinery of making and controlling the prices of the \$70,000,000,000 of stocks and bonds on the stock exchange.

Seventh—Then they proceeded to manipulate these prices of stocks and bonds, and through false reports circulated in the press, directly or indirectly, to cause the people to believe that the price of the goods

inducement continued by the System, and through daily artificial stock market manipulations and false news, induced the people to believe that inflated prices thus made were legitimate, and induced the people to invest their savings at this preposterous valuation. After taking the people in they reversed the process. Press stories of depression replaced those of prosperity. Then System controlled banks and trust companies, called in the money that had been loaned to the people to buy the stocks and a panic was on, during the progress of which the people were frightened into throwing over their stocks and bonds at slaughter prices, which the System purchased at billions of dollars less than the victims had been induced to pay for them. By this time the System, the banks, the trust companies, and the stock market, had been so manipulated, that the System was able to make the tremendous profit of \$3,999,000,000.00, and the people were left with nothing but the "hard times" and the "hard times" of necessities and luxuries and labor and interest are controlled, thereby creating "Prosperity" and "Hard Times."

If the few can control the price of the seventy billion of stocks and bonds, the people will for all time be robbed of their savings. If the people can control the price themselves, they will not only be able to get back the billions of which they have been plundered, but will turn the 100 and 500 times millionaires, the Rockefellers, Harrimans and Morgans, into ordinary Americans.

With the instrument of which I have at last gained possession I propose, after twenty years of active pleading, scheming and maneuvering

\$10,000,000,000 in each of the market swings that they have engineered.  
 Think of it, \$5,000,000,000 to \$10,000,000,000, or two and one-half to five  
 times as much as the people the power to control the price of a  
 seventy billion dollars of stocks and bonds that they may bankrupt and  
 destroy the System and come into their own.

Boston, Aug. 11, 1908.  
 This advertisement will be continued here tomorrow.

After you have read above and while waiting for the next chapter remember: The "Stock Game"

played on the one side by a few men possessed by unlimited wealth and vast experience, both incubated from "The Game," and on the other side by millions of the public with limited capital and no experience. If the millions bunch their capital under the leadership of the wisest experience, the millions will divide amongst themselves the wealth of the few, not only with absolute surety, but in a jiffy.
